

# It pays to prioritize your health (in more ways than one)

## Critical illness health assessment benefit

Healthcare professionals recommend regular health screenings — and for good reason. Screenings can detect potential medical conditions early on so that you can take necessary preventive measures to stay healthy.

Now, you have another incentive: If you're enrolled in Lincoln Critical Illness Insurance, we'll pay you for staying current with important screenings. Below, you'll find coverage details for a range of screenings and tests.

- Receive cash back for one covered screening each plan year with no waiting period.
- Submit claims via the employee self-service portal, email, fax, or mail. Claims are typically processed within 24 hours of receipt, and telephonic submissions are processed during the call.
- Your health assessment benefit will be paid within 24 hours of receiving a completed claim form.
