

# MoneyGuard Market Advantage<sup>®</sup>

## Fact sheet<sup>1</sup>

Single Life Variable Universal Life insurance policy with a long-term care rider that reimburses qualified long-term care expenses.

## Key product and rider details

### Issue ages and classes

**Ages 30–70 (age last birthday), male/female, couples discount standard**

- Couples discount applies if you are legally married (traditional or same sex) or are part of a civil union or domestic partnership or are in a common-law marriage as recognized in the state of issue.

### Premiums

May be paid as a single premium or as flexible premiums. Premium modes: annual, semiannual, quarterly, monthly (requires electronic funds transfer). Flexible premium design allows for premiums to be paid at any time up to age 121, within premium limits and may be subject to underwriting as noted in your policy. If premiums are not paid, your policy will lapse.

### Amount of coverage

Minimum specified amount of death benefit: **\$50,000 (at policy issue)**

Maximum specified amount of death benefit: **\$500,000**

- While your policy is in-force the death benefit will be the greatest of: Specified Amount or minimum required death benefit also, includes a Residual Death Benefit (lesser of 5% of Specified Amount or \$10,000).

### Elimination period

Once eligible, there is no deductible or waiting period for long-term care benefits to begin.

### Long-Term Care Benefits Rider (LTCBR)

This rider provides you with LTC benefits based on the greatest of the following three values at time of claim eligibility approval.

- **LTC Market Value** — Market Value is equal to 4 times your policy's Accumulation Value. As Market Value is derived from the Accumulation Value, it can change on a daily basis. The Accumulation Value is the value of your investment selections after fees, charges and loans.
- **LTC Protected Value** — Protected Value is equal to 2.5 times your policy's Accumulation Value as of any past policy anniversary. Protected Value is a way to lock in LTC benefits as described in your policy as long as the Value Protection Rider is attached to your policy.
- **LTC Base Value** — Base Value is derived from your policy's Specified Amount of death benefit. It is the minimum LTC benefit amount available to reimburse the costs incurred by the Insured for Covered Services assuming no post-issue changes have been made.

### Value Protection Rider (VPR)

This rider provides a No-Lapse Guarantee and LTC Protected Value if auto-rebalancing and allocation requirements are met.

**For use in California only. The purpose of this communication is the solicitation of insurance. Contact will be made by a licensed insurance agent/producer or insurance company.**

### Investment options and transfers

---

A broad variety of funding options are available for you to choose from. Please see the prospectus for more information. Your policy performance is based on the options chosen.

- **Fixed Account transfers** — Transfers from the Fixed Account may be subject to limitations in timing or amount. There are currently no restrictions.
- **Investment option transfers** — Up to 24 transfer requests are available in any policy year. Lincoln reserves the right to charge a fee for each transfer in excess of 24 per year. A VUL policy is not designed to serve as a vehicle for frequent trading. Market timing is prohibited. Automatic rebalancing changes do not count toward the 24 transfer request.

### Allocation requirements

---

Three tiers of funding options are available (see below). If any money is allocated to Tier 3, then 20% of your money must be allocated to Tier 1:

- **Tier 1:** Fixed Account, Bond funds
- **Tier 2:** Blended (Equity/Bond) Funds, Asset Allocation Funds, Target-Date Funds
- **Tier 3:** Equity Funds

**Please note:** Automatic quarterly rebalancing and the allocation requirements identified above are required to maintain the Value Protection Rider (VPR).

### Automatic rebalancing

---

After you select an asset allocation that fits your goals and risk tolerance, your policy will be automatically rebalanced each quarter to ensure the policy allocation continues to reflect your desired allocation, regardless of your investment option performance. Automatic rebalancing will not count against the number of transfers allowed per year.

**Please note:** Automatic quarterly rebalancing and the allocation requirements identified above are required to maintain the Value Protection Rider (VPR).

### Flex care cash

---

The LTCBR provides receipt-free cash for care needs. You can receive up to 50% of the maximum daily LTC benefit as cash for care needs. Available if Base LTC benefits remain and are approved as part of the Plan of Care. Please see the prospectus for more information.

### International benefits

---

The LTCBR can be used for qualified long-term care expenses if needed while you're abroad. This only applies to care received in a nursing or residential care facility and can be used for 36 months' worth of claims.

## Covered services

### Adult day care

---

## Important facts about *MoneyGuard Market Advantage*<sup>®</sup>

### Premium load

---

Premium load applies in all years on all premiums paid. A deduction is applied to each premium payment to cover state and federal taxes and other costs.

### Surrender charge duration

---

19 years

### Loans and withdrawals

---

Long-term care and death benefits will be reduced if any withdrawals or loans are taken. Taking loans or withdrawals may jeopardize your policy's performance and guarantees.

### Dollar cost averaging (DCA)

---

Dollar cost averaging lets you systematically allocate, on a monthly basis, specified dollar amounts from the money market fund and the Fixed Account to other variable accounts.

You can request dollar cost averaging only from the time your policy is issued until your first policy anniversary. At the end of the first year, you will be moved to automatic rebalancing.

By allocating funds on a regular basis as opposed to a one-time allocation, you may reduce the average cost per unit over time. Dollar cost averaging neither assures you of a profit nor protects against loss in a declining market. It involves continuous investment in securities, regardless of fluctuating price levels. You need to consider if you'll be in a position to continue purchasing through periods of low price levels.

### Fixed Account

---

Interest credited daily at a rate determined by Lincoln.  
Minimum effective annual rate of 1.0%.

### Monthly charges

---

Separate deductions are made each month to cover the cost of the various insurance elements, up to age 121 or when the policy has fully accelerated the Specified Amount and Accumulation Value down to zero. Current and guaranteed rates may differ.

- **Cost of Insurance:** Monthly charge based on Attained Age, Gender, Accumulation Value, and Death Benefit.
- **Mortality and Expense Risk (M&E) and Asset Charge:** Referred to as the Mortality and Expense Risk (M&E) charge when applied to the separate accounts; referred to as an Asset Charge when applied to the Fixed Account and Loan Capitalization Account. This charge will be taken at the policy level based on the total accumulation value.
- **LTCBR Charge:** The charge is based on Insured's Issue Age, Gender, Class, inflation option elected and if inflation is active or inactive. LTCBR amount reduced by partial surrenders, Specified Amount reductions which will also reduce the LTCBR charge, as well as loans.
- **Administration Fee:** Charge is per thousandth of Specified Amount charge that varies by Gender, Class and Issue Age.

### LTCBR General exclusions and limitations

---

The Long-Term Care Benefits Rider will not provide benefits for:

- A) Treatment or care for alcoholism or drug addiction;
- B) Illness, treatment, or a medical condition arising out of an attempt at suicide, whether or not the person had mental capacity to control what he or she was doing, or intentionally self-inflicted injury
- C) Treatment provided in a Veterans Administration or government facility, unless the Insured or the Insured's estate is charged for the confinement or services or unless otherwise required by law;
- D) Loss to the extent that benefits are payable under any of the following:
  - 1. Medicare, including that which would have been payable but for the application of a deductible or a coinsurance amount, or any other governmental programs, except Medi-Cal or Medicaid;
  - 2. State or Federal workers' compensation laws;
  - 3. Employer's liability laws;
  - 4. Occupational disease laws; and
  - 5. Any motor vehicle no-fault laws;
- E) Confinement or care received outside the United States, other than benefits for Nursing Home Care Services and Residential Care Facility Services as described in the "International Benefits" provision;
- F) Services provided by an Immediate Family Member, except as provided in the "Flexible Care Cash Benefits" provision, unless:
  - 1. The Immediate Family Member is a regular employee of the service or care provider furnishing the service or care;
  - 2. The service or care provider receives the payment for the service or care; and
- G) Services for which no charge is or would normally be made in the absence of insurance.

## Benefit eligibility

When you contact our claims department to file a claim, we will request an assessment to be performed by a licensed health care practitioner to determine your benefit eligibility. If we provide the assessor, it will be provided at our expense. We may also choose to accept the assessment of your licensed health care practitioner. To be eligible for benefits, the licensed health care practitioner who performs the assessment must certify that you are chronically ill and unable to perform at least two activities of daily living (bathing, continence, dressing, eating, toileting, and transferring) for at least 90 days. You are also considered chronically ill if you require substantial supervision to protect you from threats to health and safety caused by severe cognitive impairment. Recertification of your benefit eligibility is required at least annually.

## Tax information

All references to tax benefits are based on the Lincoln understanding of current tax laws and regulations. Consult your tax professional for additional information. The federal income tax treatment of life insurance is complex and current tax treatment of life insurance may change. There are other federal tax consequences such as estate, gift and generation skipping transfer taxes, as well as state and local income, estate and inheritance tax consequences. You should always consult a tax professional about the application of federal and state tax rules to your individual situation. The following discussion highlights tax risks in general, summary terms.

### **Income tax-free long-term care benefit**

---

Benefits are generally paid income tax-free under Internal Revenue Code Section 104(a)(3). Long-term care coverage will continue as long as you remain eligible or until your entire long-term care benefit is exhausted.

### **Income tax-free death benefit**

---

If you never need long-term care and all planned premiums are paid to keep your policy in-force, a death benefit is paid to your beneficiaries, income tax-free under Internal Revenue Code Section 101(a)(1). If your entire specified death benefit amount has been used to pay for long-term care, your beneficiaries receive a residual death benefit.
