

Lincoln SVUL^{ONE}¹

Feel secure for life

Lincoln SVUL^{ONE} variable universal life insurance policy, with the Optimal No-Lapse Enhancement (ONE) Rider,² offers you a guaranteed lifetime death benefit with options that can reduce cost and increase your cash value and death benefit protection.

With Lincoln SVUL^{ONE} you can:

- Cover two individuals under one policy with one premium.
- Choose from a broad variety of funding options for investing your cash value.³ Please see the prospectus for more information. Your policy performance is based on the options chosen.
- Access potential cash value for your needs today or tomorrow.
- Add chronic illness or long-term care expense protection.⁴

Distributions are taken through loans and withdrawals, which reduce a policy's cash surrender value and death benefit and may cause the policy to lapse. Loans are not considered income and are tax-free. Withdrawals and surrenders are tax-free up to the cost basis.

¹ Lincoln SVUL^{ONE} (2021). **Guarantees are subject to the claims-paying ability of the issuing company. Limitations and conditions apply.** ² The ONE Rider is issued automatically at no additional charge. To maintain the guaranteed death benefit protection, automatic rebalancing is required, allocation requirements must be met, and the use of the money market investment option is limited to the right-to-examine period, or as an account from which to transfer funds for the dollar cost averaging (DCA) program. We reserve the right to establish and/or revise the investment restrictions as described in the prospectus. If the no-lapse benefit expires or terminates, the account value must be sufficient to keep the policy in-force, or additional premiums will be required to avoid a policy lapse. Paying only the premium required to satisfy the no-lapse guarantee may lessen the potential for buildup of the policy's account value. As long as the requirements of the rider are met, it will not terminate while the policy is in-force. The no-lapse guarantee is in effect if either of the rider's reference values, less indebtedness, is greater than zero. ³ Diversification does not assure a profit or protect against loss. ⁴ Optional enhancements are offered through riders, are subject to certain requirements and may incur additional costs. Limitations and exclusions apply. For additional details and availability, please contact your financial professional.

Manage your investment options

Automatic rebalancing

After you select an asset allocation that fits your goals and risk tolerance, your policy will be automatically rebalanced each quarter to ensure the allocation continues to reflect your original allocation, regardless of your investment option performance.

Dollar cost averaging (DCA)

DCA lets you systematically allocate, monthly, specified dollar amounts from the money market fund and the Fixed Account to other variable accounts. You can request DCA only from the time your policy is issued until your first policy anniversary. At the end of the first year, you will be moved to automatic rebalancing.

By allocating funds on a regular basis as opposed to a one-time allocation, you may reduce the average cost per unit over time. DCA neither assures you of a profit nor protects against loss in a declining market. It involves continuous investment in securities, regardless of fluctuating price levels. You need to consider if you'll be in a position to continue purchasing through periods of low price levels.

Fixed Account transfers

Transfers from the Fixed Account may be subject to limitations in timing or amount. There are currently no restrictions.

Investment options transfers

Up to 24 transfer requests are available in any policy year. Lincoln reserves the right to charge a fee for each transfer in excess of 24 per year. A VUL policy is not designed to serve as a vehicle for frequent trading. Market timing is prohibited.

Allocation requirements

ONE Rider allocation requirements effective for applications received on and after 5/15/2023:

Three tiers of funds are available. Up to 100% may be allocated to either Tier 1 or Tier 2, or a combination of both. If any allocation is made to Tier 3, then at least 25% must be allocated to Tier 1.

- **Tier 1:** Fixed Income Funds and the Fixed Account
- **Tier 2:** Blended (Equity/Fixed Income) Asset Allocation Funds
- **Tier 3:** Equity Funds

¹ Included where available and subject to certain fees and account credits if premiums are directed to this rider.

² As long as your account value is at a sufficient level, you can take loans or withdrawals. This reduces the account value and death benefit, may cause the policy to lapse, and may have tax implications. Investment return and principal value may fluctuate. If surrendered, the cash surrender value may be worth more or less than total premiums paid.

With any VUL product, certain fees and costs are involved, including monthly cost of insurance, administrative expense and premium load charges, as well as daily charges on assets invested in the variable subaccounts for mortality and expense risk, and asset management fees. Please consult the prospectus or ask your financial professional for more detailed information.

Access to policy's cash value is taken through loans and withdrawals, which reduce a policy's cash surrender value and death benefit and may cause the policy to lapse.
